

To Ron McAfee, Lions Roofing

It takes a whole community to build a Habitat home because Habitat for Humanity is more than just building! Habitat is a people-to-people organization forming partnerships with community leaders, builders, suppliers, volunteers and Family Partners. Together we provide simple, adequate and affordable housing to low income families. Together, we make a difference.

We do appreciate the time you and your employees have donated to our last three homes - both the homes on Lount Street and the one on Livingston Street. It is because of the trades and suppliers offering time and materials to help keep the build costs down that we are able to build our 31st and 32nd homes this year. Your support plays an integral part in our success.

Without people like you, we would not enjoy the success we do today. We thank you Ron and your employees for your volunteerism and support - you truly make a difference. Thank you.

Melody Edwards
Executive Director
Habitat for Humanity - Huronia, Inc.
